Erstellung eines Systems zur Generierung von Messreports und Kalibrierzertifikaten (German Edition) Sven Schaumann

Diplomarbeit aus dem Jahr 2004 im Fachbereich Elektrotechnik, Note: 1,4, Duale Hochschule Baden-Württemberg, Stuttgart, früher: Berufsakademie Stuttgart, 7 Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: Bei der Abteilung „Photonic Measurement Division“ von Agilent Technologies gibt es eine spezielle Unterabteilung namens „Metrology Laboratory“, die sich unter anderem mit der Kalibrierung und Vermessung von optischen Leistungsmessgeräten beschäftigt. Diese Diplomarbeit behandelt die Entwicklung eines Programmes, sowie die Definition des benötigten Umfeldes, zur Erzeugung von Meßreports und Kalibrierzertifikaten. Dabei werden die speziellen Meßdaten eines sogenannten optischen „Heads“ von der Software eingelesen, interpretiert, ausgewertet und aufbereitet. Die erhaltenen tabellarischen und graphischen Ergebnisse übermittelt das Programm in einen Meßreport, um sie für den Auftraggeber zu dokumentieren. Es wurde ein optimales, benutzerfreundliches System, zur automatischen und Parameter gesteuerten Verwirklichung des erwähnten Vorhabens erschaffen.

At the department “Photonic Measurement Division” of Agilent Technologies there is a special subsection called “Metrology Laboratory”, which deals, among other things, with the calibration and measurement of optical power measuring instruments. This diploma thesis treats with the development of a program, as well as the definition of the necessary surrounding field, for the generation of measurement reports and calibration certificates. Therefore the special measuring data of a so-called optical "Head" are read in, interpreted, evaluated and prepared by the software. The program conveys the obtained tabular and graphic results into a measuring report, in order to document it for the client. An optimal, parameter-controlled and user friendly system for the mentioned project was created.

From reader reviews:

Marie Griffin:

Here thing why this Erstellung eines Systems zur Generierung von Messreports und Kalibrierzertifikaten (German Edition) are different and trustworthy to be yours. First of all reading a book is good however it depends in the content from it which is the content is as delightful as food or not. Erstellung eines Systems zur Generierung von Messreports und Kalibrierzertifikaten (German Edition) giving you information deeper and different ways, you can find any publication out there but there is no publication that similar with Erstellung eines Systems zur Generierung von Messreports und Kalibrierzertifikaten (German Edition). It gives you thrill reading through journey, its open up your personal eyes about the thing that will happened in the world which is possibly can be happened around you. You can easily bring everywhere like in park, café, or even in your method home by train. In case you are having difficulties in bringing the printed book maybe the form of Erstellung eines Systems zur Generierung von Messreports und Kalibrierzertifikaten (German Edition) in e-book can be your choice.

Lisa Langlais:

The knowledge that you get from Erstellung eines Systems zur Generierung von Messreports und Kalibrierzertifikaten (German Edition) could be the more deep you searching the information that hide within the words the more you get thinking about reading it. It doesn't mean that this book is hard to recognise but Erstellung eines Systems zur Generierung von Messreports und Kalibrierzertifikaten (German Edition) giving you excitement feeling of reading. The article writer conveys their point in particular way that can be understood by anyone who read it because the author of this e-book is well-known enough. This particular book also makes your vocabulary increase well. It is therefore easy to understand then can go along, both in printed or e-book style are available. We advise you for having this kind of Erstellung eines Systems zur Generierung von Messreports und Kalibrierzertifikaten (German Edition) instantly.

Lila Johnson:

Information is provisions for folks to get better life, information today can get by anyone in everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider if those information which is within the former life are challenging to be find than now is taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you have the unstable resource then you understand it as your main information there will be huge disadvantage for you. All of those possibilities will not happen with you if you take Erstellung eines Systems zur Generierung von Messreports und Kalibrierzertifikaten (German Edition) as the daily resource information.

Margaret Padua:

Reading a publication make you to get more knowledge as a result. You can take knowledge and information from the book. Book is created or printed or created from each source that filled update of news. With this

modern era like today, many ways to get information are available for you. From media social such as newspaper, magazines, science publication, encyclopedia, reference book, novel and comic. You can add your knowledge by that book. Ready to spend your spare time to spread out your book? Or just looking for the Erstellung eines Systems zur Generierung von Messreports und Kalibrierzertifikaten (German Edition) when you necessary it?
