Neuroliderazgo: Liderazgo Compartido en Valores

En un lenguaje simple, coloquial, expongo el impacto en el liderazgo de los avances de:

- Las Neurociencias
- Las Inteligencias Múltiples
- Los Modelos Mentales

Desde el liderazgo de la sociedad matriarcal hasta la actual se analizan las variables claves que determinan la ausencia de liderazgos positivos de la actualidad.

La distinciones naturales, de género y cerebrales determinan diferentes modelos de liderazgo que son analizados considerando las relaciones interpersonales e incluyendo un novedoso desarrollo sobre la significación de los colores y su vinculación con el género masculino y femenino.

¿Cómo intervienen las “Leyes de la naturaleza” en el modelo del “Liderazgo Compartido en Valores” para enfrentar una sociedad en crisis”?

El desarrollo de un liderazgo más relacionado con los talentos naturales de los géneros femenino y masculino dispone de una metodología que integra las necesidades de igualdad y equidad que la sociedad manifiesta; esto es una asignatura aun pendiente.

La propuesta de la Metodología CODAR, plantea una solución innovadora para enfrentar el cambio que la realidad demanda, definir los perfiles del liderazgo compartido en valores necesarios para mejorar la empatía entre las personas en el marco laboral y social.
