Perspectives on Children's Spiritual Formation presents in counterpoint form four views of children's spiritual formation and four related methods of Christian Education. Each chapter is written by a prominent person(s) representing his or her view. Contributors also respond to the other viewpoints. Views include the contemplative-reflective model (cultivating a quiet, worshipful spirit), instructional-analytic model (involving child evangelism and Bible memorization), pragmatic participatory model (focusing on high-energy activities, often seen in mega-churches), and the media-driven active-engagement model (using a video-based curriculum with limited teacher training).
