The Economics of Taxation (MIT Press)

Bernard Salanié

The Economics of Taxation (MIT Press) Bernard Salanié

This concise introduction to the economic theories of taxation is intuitive yet rigorous, relating the theories both to existing tax systems and to key empirical studies. *The Economics of Taxation* offers a thorough discussion of the consequences of taxes on economic decisions and equilibrium outcomes, as well as useful insights into how policy makers should design taxes. It covers such issues of central policy importance as taxation of income from capital, environmental taxation, and tax credits for low-income families. This second edition has been significantly revised and updated. Changes include a substantially rewritten chapter on direct taxation; a discussion of recent research in the chapter on mixed taxation; the replacement of the chapter on capital taxation with a chapter on the "new dynamic public finance"; and considerations of environmental taxation in both theory and policy chapters. The book is aimed at graduate students or advanced undergraduates taking public finance classes as well as economists who want to learn more about the topic. It combines discussion of theory, empirical work, and policy objectives in compact form.

Appendices provide necessary background material on consumer and producer theory and the theory of optimal control.

From reader reviews:

Stephen Wilson:

Information is provisions for anyone to get better life, information these days can get by anyone on everywhere. The information can be a information or any news even a concern. What people must be consider any time those information which is from the former life are difficult to be find than now is taking seriously which one is appropriate to believe or which one the resource are convinced. If you get the unstable resource then you get it as your main information there will be huge disadvantage for you. All those possibilities will not happen within you if you take The Economics of Taxation (MIT Press) as your daily resource information.

Margaret Honig:

Reading a reserve tends to be new life style in this era globalization. With reading through you can get a lot of information that may give you benefit in your life. Together with book everyone in this world can certainly share their idea. Books can also inspire a lot of people. Many author can inspire their reader with their story or their experience. Not only situation that share in the ebooks. But also they write about the information about something that you need case in point. How to get the good score toefl, or how to teach your young ones, there are many kinds of book which exist now. The authors these days always try to improve their ability in writing, they also doing some study before they write for their book. One of them is this The Economics of Taxation (MIT Press).

Shirley Cochran:

Playing with family in the park, coming to see the sea world or hanging out with good friends is thing that usually you will have done when you have spare time, in that case why you don't try thing that really opposite from that. One particular activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love The Economics of Taxation (MIT Press), you can enjoy both. It is excellent combination right, you still wish to miss it? What kind of hang-out type is it? Oh can occur its mind hangout fellas. What? Still don't obtain it, oh come on its named reading friends.

Katrina Scofield:

Is it you actually who having spare time then spend it whole day by means of watching television programs or just resting on the bed? Do you need something totally new? This The Economics of Taxation (MIT Press) can be the reply, oh how comes? It's a book you know. You are and so out of date, spending your spare time by reading in this fresh era is common not a nerd activity. So what these books have than the others?
