**Handbook of Refinery Desulfurization (Chemical Industries)** Nour Shafik El-Gendy, James G. Speight

**Handbook of Refinery Desulfurization** describes the operation of the various desulfurization process units in a petroleum refinery. It also explains the processes that produce raw materials for the petrochemical industry. It illustrates all the possible processes to lower the sulfur contents in petroleum and its fractions to decrease emissions of sulfur oxides.

This book introduces you to desulfurization concepts, including biodesulfurization, as well as technology, giving guidance on how to accomplish desulfurization in various refining processes. It contains background chapters on the composition and evaluation of feedstocks and includes diagrams and tables of feedstocks and their respective products. It also outlines how to decide which method should be employed to remove sulfur from different feedstocks.

A practical and thorough discussion of the field, **Handbook of Refinery Desulfurization** gives you a strong grasp of the various processes involved with industrial desulfurization while giving you pointers on which procedures to use under certain conditions.
