**Nonparametric Methods in Statistics with SAS Applications (Chapman & Hall/CRC Texts in Statistical Science)** Olga Korosteleva

Designed for a graduate course in applied statistics, **Nonparametric Methods in Statistics with SAS Applications** teaches students how to apply nonparametric techniques to statistical data. It starts with the tests of hypotheses and moves on to regression modeling, time-to-event analysis, density estimation, and resampling methods.

The text begins with classical nonparametric hypotheses testing, including the sign, Wilcoxon sign-rank and rank-sum, Ansari-Bradley, Kolmogorov-Smirnov, Friedman rank, Kruskal-Wallis H, Spearman rank correlation coefficient, and Fisher exact tests. It then discusses smoothing techniques (loess and thin-plate splines) for classical nonparametric regression as well as binary logistic and Poisson models. The author also describes time-to-event nonparametric estimation methods, such as the Kaplan-Meier survival curve and Cox proportional hazards model, and presents histogram and kernel density estimation methods. The book concludes with the basics of jackknife and bootstrap interval estimation.

Drawing on data sets from the author's many consulting projects, this classroom-tested book includes various examples from psychology, education, clinical trials, and other areas. It also presents a set of exercises at the end of each chapter. All examples and exercises require the use of SAS 9.3 software. Complete SAS codes for all examples are given in the text. Large data sets for the exercises are available on the author's website.

**From reader reviews:**

**Loren Velasco:**

Now a day people who Living in the era where everything reachable by interact with the internet and the resources inside it can be true or not require people to be aware of each info they get. How many people to be smart in receiving any information nowadays? Of course the solution is reading a book. Reading through a book can help men and women out of this uncertainty Information mainly this Nonparametric Methods in Statistics with SAS Applications (Chapman & Hall/CRC Texts in Statistical Science) book since this book offers you rich data and knowledge. Of course the knowledge in this book hundred % guarantees there is no doubt in it you may already know.

**Earl Martinez:**

This book untitled Nonparametric Methods in Statistics with SAS Applications (Chapman & Hall/CRC Texts in Statistical Science) to be one of several books this best seller in this year, that's because when you read this e-book you can get a lot of benefit in it. You will easily to buy this book in the book store or you can order it through online. The publisher with this book sells the e-book too. It makes you more easily to read this book, since you can read this book in your Smartphone. So there is no reason for your requirements to past this e-book from your list.

**Jeffrey Chambers:**

This Nonparametric Methods in Statistics with SAS Applications (Chapman & Hall/CRC Texts in Statistical Science) is great reserve for you because the content that is certainly full of information for you who else always deal with world and also have to make decision every minute. This kind of book reveal it info accurately using great coordinate word or we can say no rambling sentences inside. So if you are read the idea hurriedly you can have whole information in it. Doesn't mean it only gives you straight forward sentences but challenging core information with beautiful delivering sentences. Having Nonparametric Methods in Statistics with SAS Applications (Chapman & Hall/CRC Texts in Statistical Science) in your hand like finding the world in your arm, facts in it is not ridiculous just one. We can say that no reserve that offer you world inside ten or fifteen second right but this reserve already do that. So , this is good reading book. Hello Mr. and Mrs. active do you still doubt that will?

**Eva Lynch:**

Is it you actually who having spare time in that case spend it whole day by simply watching television programs or just lying on the bed? Do you need something new? This Nonparametric Methods in Statistics with SAS Applications (Chapman & Hall/CRC Texts in Statistical Science) can be the respond to, oh how comes? A fresh book you know. You are so out of date, spending your free time by reading in this new era is common not a geek activity. So what these books have than the others?
