William A. Hart, O. F. Beumel, Thomas P. Whaley

The Chemistry of Lithium, Sodium, Potassium, Rubidium, Cesium and Francium: Pergamon Texts in Inorganic Chemistry

William A. Hart, O. F. Beumel, Thomas P. Whaley

The Chemistry of Lithium, Sodium, Potassium, Rubidium, Cesium, and Francium studies the physical and chemical properties of the elements listed in the title, including their chemical compounds and reactions.

This book first features lithium, including its characterization, metals, and compounds. This topic is followed by discussions on the remaining featured elements in this text, encompassing their discovery and history, occurrence and distribution, and production. Then, this text presents the chemistry and chemical properties of the elements, specifically discussing topics such as the reactions of the metals, intermetallic compounds, hydrides, halides, cyanides and cyanates, and oxides and peroxides. The last two chapters examine biological activity and analytical chemistry of the elements.

This book will be valuable to students and experts in the field of chemistry, as well as those in related fields.

From reader reviews:

Nichole Gibson:

Nowadays reading books become more than want or need but also become a life style. This reading practice give you lot of advantages. Associate programs you got of course the knowledge the rest of the information inside the book that improve your knowledge and information. The knowledge you get based on what kind of reserve you read, if you want attract knowledge just go with education and learning books but if you want sense happy read one with theme for entertaining for example comic or novel. Typically the The Chemistry of Lithium, Sodium, Potassium, Rubidium, Cesium and Francium: Pergamon Texts in Inorganic Chemistry is kind of guide which is giving the reader unforeseen experience.

Joni Thompson:

The e-book untitled The Chemistry of Lithium, Sodium, Potassium, Rubidium, Cesium and Francium: Pergamon Texts in Inorganic Chemistry is the guide that recommended to you to study. You can see the quality of the e-book content that will be shown to anyone. The language that writer use to explained their way of doing something is easily to understand. The writer was did a lot of research when write the book, and so the information that they share to you is absolutely accurate. You also might get the e-book of The Chemistry of Lithium, Sodium, Potassium, Rubidium, Cesium and Francium: Pergamon Texts in Inorganic Chemistry from the publisher to make you far more enjoy free time.

Gene Baker:

Do you have something that you enjoy such as book? The book lovers usually prefer to opt for book like comic, short story and the biggest an example may be novel. Now, why not striving The Chemistry of Lithium, Sodium, Potassium, Rubidium, Cesium and Francium: Pergamon Texts in Inorganic Chemistry that give your enjoyment preference will be satisfied by reading this book. Reading addiction all over the world can be said as the method for people to know world far better then how they react in the direction of the world. It can't be said constantly that reading routine only for the geeky person but for all of you who wants to become success person. So , for all you who want to start reading through as your good habit, you may pick The Chemistry of Lithium, Sodium, Potassium, Rubidium, Cesium and Francium: Pergamon Texts in Inorganic Chemistry become your personal starter.

Robert Mangino:

That book can make you to feel relax. This specific book The Chemistry of Lithium, Sodium, Potassium, Rubidium, Cesium and Francium: Pergamon Texts in Inorganic Chemistry was multi-colored and of course has pictures around. As we know that book The Chemistry of Lithium, Sodium, Potassium, Rubidium, Cesium and Francium: Pergamon Texts in Inorganic Chemistry has many kinds or style. Start from kids until youngsters. For example Naruto or Private eye Conan you can read and feel that you are the character on

there. Therefore , not at all of book are make you bored, any it offers you feel happy, fun and chill out. Try to choose the best book for you personally and try to like reading that will.
