Migrating from MYOB to Xero is an opportunity to examine what information you really, really want from your accounting system, and also a chance to customise the data (and Xero) to suit those needs. This In A Day book is focused on exporting data from the MYOB file you've been using, preparing that data so it imports into Xero easily, and then importing the data into Xero.

In no time you'll be in the cloud with activated bank feeds. You'll be reconciling data on your mobile phone, enabling your accountant to simultaneously access data, strategically managing your business and meeting your tax obligations.
