Macroeconomía (nueva edición) (Manuales) (Spanish Edition) Juan Tugores Ques

La Macroeconomía vuelve a estar de actualidad. Las controversias sobre desempleo, estímulos fiscales, déficits y deuda públicos, actuaciones de los bancos centrales y desequilibrios internacionales, así como las propuestas de reformas y las controversias sobre los márgenes de maniobra de los poderes públicos, ocupan lugares de nuevo centrales entre los especialistas y en la opinión pública. Este texto resume de forma sistemática y pedagógica las principales herramientas y argumentaciones en respuesta a la pregunta de qué contenidos realmente relevantes pueden y deben transmitirse a los interesados en Macroeconomía en esta segunda década del siglo XXI marcada por el binomio 'globalización + crisis'. El libro prioriza el equilibrio entre los fundamentos analíticos y las aplicaciones a casos reales, con especial énfasis en los retos que suponen unas economías cada vez más abiertas a la globalización y en las lecciones que está suponiendo afrontar la crisis financiera internacional.
