## **Peer to Peer and the Music Industry: The Criminalization of Sharing (Published in association with Theory, Culture & Society) Matthew David**

Have the music and movie industries lost the battle to criminalize downloading?

This penetrating and informative book provides readers with the perfect systematic critical guide to the file-sharing phenomenon. Combining inter-disciplinary resources from sociology, history, media and communication studies and cultural studies, David unpacks the economics, psychology and philosophy of file-sharing.

The book carefully situates the reader in a field of relevant approaches including network society theory, post-structuralism and ethnographic research. It uses this to launch into a fascinating enquiry into:

- the rise of file-sharing
- the challenge to intellectual property law posed by new technologies of communication
- the social psychology of cyber crime
- the response of the mass media and multi-national corporations.

Matthew David concludes with a balanced, eye-opening assessment of alternative cultural modes of participation and their relationship to cultural capitalism.

This is a landmark work in the sociology of popular culture and cultural criminology. It fuses a deep knowledge of the music industry and the new technologies of mass communication with a powerful perspective on how multinational corporations seek to monopolize markets, how international and state agencies defend property, while a global multitude undermine and/or reinvent both.
