## Problemas actuales de política educativa (Spanish Edition) Manuel De Puelles

La educación ha sido hasta tiempos históricamente recientes un bien escaso, monopolizado por minorías privilegiadas. Esto explica las luchas sociales y políticas que en torno a la educación se libraron en los dos últimos siglos, similares a aquéllas que reivindicaron una mejor distribución de otros bienes escasos, como el poder o los recursos económicos. Es verdad que el siglo XX se caracterizó por un notable avance en la democratización de la educación, esto es, en el acceso universal a la educación básica, obligatoria y gratuita; sin embargo, la educación no dejó de ser conflictiva, desplazándose ahora la pugna social y política hacia la obtención de otro bien escaso: la calidad de la educación. El siglo XXI se abre con ese gran reto: la equitativa distribución de una educación de calidad para todos.
