"God, are you there?" is a near universal cry of the human heart.

We have all longed for God to be tangible. Some might sway to worship music, others go on missions, others fast from food. The universal quest is to feel the divine . . . and yet the divine seems aloof, even shy. In this narrative-driven book, Tony Kriz leads the reader on a journey of “orchestrated epiphanies” along the eternal quest to tangibly encounter God, including the unpredictable moments that give us hope, and even more so, the long gaps between those moments that challenge our faith.

Written in an authentic, conversational style, *Aloof* is easily accessible to those who don’t know much about the Bible, yet the message is still theologically informed and culturally relevant. This book will help you process how God acts uniquely towards us, depending upon each stage of life. The chapters include contemporary real-life stories that normalize the experience of an often hidden God, while also aiding the reader to acknowledge the very real moments (rare though they may be) when God has shown up in a tangible way.
