Over the past two decades, profound changes in Israel opened its society to powerful outside forces and the dominance of global capitalism. As a result, the centrality of Zionism as an organizing ideology waned, prompting expressions of anxiety in Israel about the coming of a post-Zionist age. The fears about the end of Zionism were quelled, however, by the Palestinian uprising in 2000, which spurred at least a partial return to more traditional perceptions of homeland. Looking at Israeli literature of the late twentieth century, Yaron Peleg shows how a young, urban class of Israelis felt alienated from the Zionist values of their forebears, and how they adopted a form of escapist romanticism as a defiant response that replaced traditional nationalism. One of the first books in English to identify the end of the post-Zionist era through inspired readings of Hebrew literature and popular media, *Israeli Culture between the Two Intifadas* examines Israel's ambivalent relationship with Jewish nationalism at the end of the twentieth century.
