**Global Sports Policy** Catherine Palmer

"Lifts the analysis out of the nuts and bolts of sports policy and into some really thought-provoking areas which will equip the policy maker for the challenges of the 21st century"

- *Dominic Malcolm, Loughborough University*

"This is an excellent analysis of the significance of globalisation for national sport policy and especially of the impact of global processes at the local socio-cultural level"

- *Barrie Houlihan, Loughborough University*

Drawing upon a range of empirical case studies, Catherine Palmer situates sports policy within a broader consideration of global processes, practices and consequences, exploring the relationship between:

- the local and the global
- globalization and governance
- new technologies
- human rights
- the environment
- corporate responsibility.

In doing so she sets out the ground for an understanding of policy making in sport and how this affects society.

Covering both theory and practice, it is a detailed and thought provoking resource for students of sports policy, sports development, sports management and sports studies.
