## **Mirror Geometry of Lie Algebras, Lie Groups and Homogeneous Spaces: 573 (Mathematics and Its Applications (closed))** Lev V. Sabinin

This book describes a new and original formalism based on mirror symmetries of Lie groups, Lie algebras and Homogeneous spaces. Special systems of mirrors are used for classification purposes and as an instrument for studies of Homogeneous spaces. Tri-symmetric and arbitrary Riemannian Homogeneous spaces can also be researched in this way. The book should be of particular interest to researchers in Lie Groups, Lie Algebras, Differential Geometry and their applications but it should also prove useful for other postgraduate and advanced graduate students in mathematics.

### **From reader reviews:**

#### **Rose Slagle:**

Throughout other case, little people like to read book Mirror Geometry of Lie Algebras, Lie Groups and Homogeneous Spaces: 573 (Mathematics and Its Applications (closed)). You can choose the best book if you love reading a book. As long as we know about how is important a new book Mirror Geometry of Lie Algebras, Lie Groups and Homogeneous Spaces: 573 (Mathematics and Its Applications (closed)). You can add information and of course you can around the world by way of a book. Absolutely right, because from book you can realize everything! From your country till foreign or abroad you will be known. About simple factor until wonderful thing you are able to know that. In this era, we could open a book or maybe searching by internet unit. It is called e-book. You should use it when you feel uninterested to go to the library. Let's learn.

#### **Michael Berry:**

What do you regarding book? It is not important along with you? Or just adding material when you want something to explain what the ones you have problem? How about your spare time? Or are you busy man? If you don't have spare time to try and do others business, it is make you feel bored faster. And you have time? What did you do? Everyone has many questions above. They must answer that question due to the fact just their can do this. It said that about book. Book is familiar on every person. Yes, it is correct. Because start from on pre-school until university need this kind of Mirror Geometry of Lie Algebras, Lie Groups and Homogeneous Spaces: 573 (Mathematics and Its Applications (closed)) to read.

#### **Cynthia Harvell:**

Mirror Geometry of Lie Algebras, Lie Groups and Homogeneous Spaces: 573 (Mathematics and Its Applications (closed)) can be one of your beginner books that are good idea. Many of us recommend that straight away because this e-book has good vocabulary that can increase your knowledge in words, easy to understand, bit entertaining but nonetheless delivering the information. The author giving his/her effort to set every word into enjoyment arrangement in writing Mirror Geometry of Lie Algebras, Lie Groups and Homogeneous Spaces: 573 (Mathematics and Its Applications (closed)) but doesn't forget the main position, giving the reader the hottest and based confirm resource info that maybe you can be one among it. This great information can drawn you into brand new stage of crucial imagining.

#### **Catherine Almond:**

Publication is one of source of expertise. We can add our expertise from it. Not only for students and also native or citizen will need book to know the update information of year in order to year. As we know those guides have many advantages. Beside most of us add our knowledge, can also bring us to around the world. By book Mirror Geometry of Lie Algebras, Lie Groups and Homogeneous Spaces: 573 (Mathematics and Its Applications (closed)) we can consider more advantage. Don't that you be creative people? For being

creative person must prefer to read a book. Simply choose the best book that suited with your aim. Don't be doubt to change your life at this book Mirror Geometry of Lie Algebras, Lie Groups and Homogeneous Spaces: 573 (Mathematics and Its Applications (closed)). You can more pleasing than now.
