WordPress is a giant on the internet. WordPress websites are going to grow more and more over the next years, allowing more and more people to create a passive income online through blogs. In this book, I will be talking about the free version of WordPress, as that is what allows anyone to create a blog for free in less than one hour. I have other books that talk about the wordpress.org option, though the focus of this website is on creating a blog with WordPress for free. The type of WordPress blog that is free and that will be referenced throughout this book will be found on wordpress.com.

There are several ways that money can be made with WordPress. Most WordPress blogs are fit to become affiliate blogs, meaning that you can make money with your blog using Amazon, or other established companies. Using your blog for affiliate advertising is one of the most common ways to generate an income with your blog. This book will take an in depth look at the free version of WordPress, and what you can do with your niche to implement affiliate advertising. As on site affiliate marketing is the most common method, this book will also introduce other monetization options available for free WordPress blogs. One of the great things about starting a blog using WordPress.com, is that no knowledge or previous experience is necessary. You can start a blog with no background in web development or computer technology. If you have the skills needed to use email, then you have the skills needed to run an effective internet blog. Many people may worry about starting a blog because they think they might lack a certain skill. Don't let that stop you. No one was born a professional blogger. If you start with this book, and then keep learning, there's no reason you can't become one of the best blog web masters in the world.
