## MALES DE ADOLESCENCIA (Psicoanálisis. APM) (Spanish Edition) MICHEL VINCENT

La adolescencia es un período de maduración situado entre la infancia y la edad adulta, dura unos diez años ¿entre los 10 y los 20? y es de importancia capital para establecer una sólida confianza en sí mismo. El niño nace varón o hembra. Las miradas de los padres y del entorno sobre el niño orientan sus identificaciones y la formación de una identidad exclusivamente suya. A través de la narración de casos tratados en el Centro Alfred Binet, creado en el seno de la Asociación para la Salud Mental en el Distrito XIII de París, el lector podrá descubrir detrás de las dificultades encontradas por los padres con sus hijos que han llegado a la adolescencia, los obstáculos que acechan al adolescente para conseguir amar y trabajar.
