**Metabolic Maps of Pesticides: v. 1 (Ecotoxicology and environmental quality series)** Hiroyasu Aizawa  
Metabolic Maps of Pesticides provides a summary of investigations and drawings of the metabolic patterns on pesticides that were collected with the aid of Chemical Abstracts Service (CAS) for the years 1970-1979. Some maps were taken from the original reports, some were slightly modified for clarity, and some were tentatively drawn from descriptions in the original articles. The pesticides are classified based on their chemical structures as functional groups or based on common chemical nomenclature. The chemical classifications highlight the properties of the mother pesticides and the impact of their degenerative metabolites on the environment.

Metabolic maps are provided for the following: acid amides, amidines and guanidines, anilines and nitrobenzenes, biphenyl ethers, DDT and its analogs, dithio- and thiolcarbamates, five- and six-membered heterocyclic compounds, imides, organochlorine compounds, oxime carbamates, phenoxyacetic acids, phenyl ring fused five-membered heterocyclic compounds, phenyl(aryl) carbamates, phenylureas and related compounds, phosphonothiolates and phosphonothioates, phosphonates, phosphorothioamides, phosphates, phosphorothiolates, pyrethroids, pyridines, triazines, and substituted benzenes and miscellaneous compounds.

### **From reader reviews:**

#### **Lauren Marine:**

Do you have favorite book? In case you have, what is your favorite's book? Reserve is very important thing for us to understand everything in the world. Each book has different aim or maybe goal; it means that guide has different type. Some people experience enjoy to spend their time for you to read a book. They are reading whatever they take because their hobby is usually reading a book. Why not the person who don't like examining a book? Sometime, individual feel need book once they found difficult problem or maybe exercise. Well, probably you'll have this Metabolic Maps of Pesticides: v. 1 (Ecotoxicology and environmental quality series).

#### **Ann Morgan:**

Book is written, printed, or descriptive for everything. You can realize everything you want by a e-book. Book has a different type. We all know that that book is important thing to bring us around the world. Beside that you can your reading proficiency was fluently. A guide Metabolic Maps of Pesticides: v. 1 (Ecotoxicology and environmental quality series) will make you to end up being smarter. You can feel far more confidence if you can know about anything. But some of you think that will open or reading some sort of book make you bored. It is far from make you fun. Why they could be thought like that? Have you searching for best book or suitable book with you?

#### **Thomas Evans:**

Your reading 6th sense will not betray an individual, why because this Metabolic Maps of Pesticides: v. 1 (Ecotoxicology and environmental quality series) guide written by well-known writer we are excited for well how to make book that may be understand by anyone who all read the book. Written throughout good manner for you, leaking every ideas and producing skill only for eliminate your own personal hunger then you still uncertainty Metabolic Maps of Pesticides: v. 1 (Ecotoxicology and environmental quality series) as good book not merely by the cover but also with the content. This is one e-book that can break don't evaluate book by its include, so do you still needing one more sixth sense to pick this kind of!? Oh come on your studying sixth sense already said so why you have to listening to yet another sixth sense.

#### **Jose Johnson:**

Reading a guide make you to get more knowledge as a result. You can take knowledge and information from a book. Book is written or printed or created from each source this filled update of news. In this modern era like right now, many ways to get information are available for anyone. From media social like newspaper, magazines, science e-book, encyclopedia, reference book, novel and comic. You can add your knowledge by that book. Are you ready to spend your spare time to open your book? Or just looking for the Metabolic Maps of Pesticides: v. 1 (Ecotoxicology and environmental quality series) when you desired it?
